### Professional Road Cycling

#### 2015 Season Overview

The professional road season begins in mid-January in Australia (the Tour Down Under is currently underway) and by early February it moves to southern Europe and runs through late October with races all over the world. Events range from one-day classics to three-week grand tours. Some of the more famous races are the one-day classics of Paris-Roubaix in northern France, Tour de Flanders in the Belgian heartland, Milan-San Remo along western coast of Italy, and the grand tours of France, Italy, and Spain. Many people who are not cycling fans will have heard of the Tour de France, one of the largest sporting spectacles on earth.

Professional cycling is governed by the Union Cyclist Internationale ([UCI](#)) based in Aigle, Switzerland.

#### The Top Races

Arguably the biggest race of the year is the Tour de France which is held during July. Some riders specialize their riding style to do well in the grand tours, while other riders will specialize in the one-day classics and shorter stage races. The Tour de France typically has between 20 and 22 stages, usually one stage each day. The winner is determined by the lowest overall cumulative time over all stages. Stages include special stages run individually against the clock called time trials, but most stages are massed-start events with all riders covering the same course together. The Tour de France allows teams of 9 riders and typically between 18 and 22 teams are invited to compete in the event.

#### The Top Riders

Riders acquire UCI points throughout the year based upon their finishing position in the various races held around the world. The leader on points in any World Tour event wears a special jersey that signifies their leadership position. However, each year, the UCI also hosts the world championship event where the world champion is determined based on the winner of a single day event. For professional riders this event is normally around 150-165 miles long. This past year, Michal Kwiatkowski of Poland won the event to be crowned the 2014 World Champion. He will wear a special rainbow jersey until the world championship event late this year, where he will attempt to defend his title.

Other top riders in 2014 were Fabian Cancellara of Switzerland, Tom Boonen of Belgium, and Chris Froome of Great Britain.

#### Bikes of the Professionals

Professional riders use specific bikes for specific events. Time trial bikes being the most specialized with highly aerodynamic builds and disk wheels often used on the rear wheel. Bikes built for climbing are extremely lightweight while bikes built for sprinting or rougher roads are somewhat heavier. A standard professional bike weighs between 14 and 18 pounds. Today most bike frames are made from carbon fiber as are many of the components and wheels. Typical cost is between \$6000 and \$20,000 USD per bike. Some of the top bike builders are:

- Colnago (Italy)
- Ridley (Belgium)
- BMC (Switzerland)
- Trek (USA)
- Bianchi (Italy)

Notes and Potential Issues

The following notes and warnings highlight missing or conflicting information which caused the validator to perform some guesswork prior to validation, or other things affecting the output below. If the guess or fallback is incorrect, it could make validation results entirely incoherent. It is *highly recommended* to check these potential issues, and, if necessary, fix them and re-validate the document.

Using experimental feature: **HTML5 Conformance Checker**.

The validator checked your document with an experimental feature: **HTML5 Conformance Checker**. This feature has been made available for your convenience, but be aware that it may be unreliable, or not perfectly up to date with the latest development of some cutting-edge technologies. If you find any issues with this feature, please [report them](#). Thank you.

Congratulations

The uploaded document "Project01-RobertArango-Unstyled.html" was successfully checked as HTML5. This means that the resource in question identified itself as "HTML5" and that we successfully performed a formal validation of it. The parser implementations we used for this check are based on [validator.nu](#) (HTML5).

# Screen Capture - CSS Stylesheet - Validation

## Before Validation

The screenshot shows a web browser window with the URL `jigsaw.w3.org/css-validator/#validate_by_upload+with_options`. The page title is "CSS Validation Service" and the subtitle is "Check Cascading Style Sheets (CSS) and (X)HTML documents with style sheets".

The interface has three tabs: "By URI", "By file upload", and "By direct input". The "By file upload" tab is selected.

Under "Validate by file upload", there is a prompt: "Choose the document you would like validated:". Below this, the "Local CSS file:" label is followed by a "Choose file" button and the filename "Project01-RobertArango-Stylesheet.css".

Below the file selection, there is a "More Options" section with four dropdown menus:

- Profile: CSS level 3
- Medium: All
- Warnings: Normal report
- Vendor Extensions: Default

A "Check" button is located at the bottom of the form.

Below the form, there is a section for "W3C VALIDATOR Suite" with a link to "Try now the W3C Validator Suite™ premium service that checks your entire website and evaluates its conformance with W3C open standards to quickly identify those portions of your website that need your attention.".

There is a "I ♥ VALIDATOR" button and a "5167" counter. A "Donate" link is also present.

A note states: "Note: If you want to validate your CSS style sheet embedded in an (X)HTML document, you should first [check that the \(X\)HTML you use is valid](#)."

At the bottom, there is a footer with links: "About", "Documentation", "Download", "Feedback", "Credits". There is also a "QUALITY Assurance" logo and a copyright notice: "COPYRIGHT © 1994-2009 W3C® (MIT, ERCIM, KEIO), ALL RIGHTS RESERVED. W3C LIABILITY, TRADEMARK, DOCUMENT USE AND SOFTWARE LICENSING RULES APPLY. YOUR INTERACTIONS WITH THIS SITE ARE IN ACCORDANCE WITH OUR PUBLIC AND MEMBER PRIVACY STATEMENTS."
