

Assignment 2 – CRC output

This is a sample output run for the WC.plain text file.

The per line CRC's have been validated and are correct.

Likewise, the CRC for the 512 bytes is correct.

```
"This is the lesson: never give in, never give in, never, never, - 000015fa[ 63]
  never, never - in nothing, great or small, large or petty - nev - 00006206[127]
er give in except to convictions of honour and good sense. Never - 00002dd2[191]
  yield to force; never yield to the apparently overwhelming migh - 000007bf[255]
t of the enemy."..... - 0000702e[319]
..... - 000024a1[383]
..... - 00005be7[447]
.....0000586e - 0000586e[511]
```

Please note that the CRC is calculated up to the 504th byte, that is 512 minus the 8 bytes for the ASCII representation of the CRC.
