University of Central Florida

DEPARTMENT OF ELECTRICAL ENGINEERING & COMPUTER SCIENCE

COMPUTER SCIENCE DIVISION

CGS 3175 Internet Applications
Fall 2015

Assignment 2
Due, Sunday, October 4, 2015 for 100% credit
Monday, October 5, 2015 for 90% credit
Tuesday, October 6, 2015 for 80% credit
Wednesday, October 7, 2015 for 70% credit

Scenario

You are starting your own business in a traditional brick-and-mortar facility and you want to develop your own Website for advertising and will eventually incorporate E-commerce. The website will be developed in stages. Each assignment represents an upgrade to your website.

Assignment 2 Create additional pages and add website navigation

1. Update the your website to include the following additional pages
    a. About page
    b. Contact us page
    c. Products and/or Services page (depending upon your design)
2. Each page, to include the home page, need to have navigation so users can access any page of the website regardless of which page they are currently viewing.
3. Separate the content of your initial home page into the appropriate four pages specified above.
4. Include comments as necessary
5. Compress your website project into any compressed file format (i.e. .rar, .zip, .7z, .gz, .tar)

Assignment 2 Scoring:

Element	Details	Percentage
About	About us page of website	20%
Contact Us	Contact us page of website	20%
Products/Services	Products or Services page of website	20%
Navigation	Links to the other pages of website; should be the same on each page	20%
Comments	Comments as necessary	20%
	Total	**100%**
