University of Central Florida

DEPARTMENT OF ELECTRICAL ENGINEERING & COMPUTER SCIENCE

COMPUTER SCIENCE DIVISION

CGS 3175 Internet Applications
Fall 2015

Assignment 3
Due, Sunday, October 18, 2015 for 100% credit
Monday, October 19, 2015 for 90% credit
Tuesday, October 20, 2015 for 80% credit
Wednesday, October 21, 2015 for 70% credit

Scenario
You are starting your own business in a traditional brick-and-mortar facility and you want to develop your own Website for advertising and will eventually incorporate E-commerce. The website will be developed in stages. Each assignment represents an upgrade to your website.

Assignment 3 Update the Website Using CSS
Create the **external** Cascading Style Sheet (.css) for your website. Include the following:
- Link the external CSS in each of your website pages
- Background
    - Set the background color of the page
    - Set the background color of another tag element of the page (e.g. h1, h2, article)
- Text
    - Set the color of the text
- Font
    - Set the font of the text
    - Set the size of the font
    - Set the style of the font for different tag elements in the page
    - Set the boldness of the font for different tag elements in the page
- Links
    - Use different colors to identify links visited and unvisited
- Lists
    - Modify the default marker for the list used
- Comments as necessary

Assignment 3 Scoring:
